CAMPBELL, SANTA CLARA COUNTY, CALIFORNIA, FRIDAY, SEPTEMBER 13, 1907.

No. 12.

CAMPBELL INTERURBAN PRESS

PUBLISHED EVERY FRIDAY BY

ELGIN C. HURLBERT

Editor and Proprietor

Subscription, \$1.00 a Year in Advance. Advertising Rates, 50c. an Inch per month. Locals, 5c a line each insertion. Resolutions of respect and condolence, 5c a line. Cards of thanks, 50c. Notices of entertainments, where a charge is made, 5c a line.

Entered as second-class matter September 30, 1904, at the Postoffice at Campbell, California, under the Act of Congress of March 3, 1879.

Hot Weather Foods

Full line cereal foods. Just the thing for hot weather, —already to eat. Call at the store and inspect our large stock of "everything good to eat."

The very best of everything in groceries. Prompt delivery, courteous treatment, right prices. Telephone orders solicited.

We are agents for Hunt's Choice Candies, and you know what that means.

OUR GROCERIES
are "Goods of Quality"
Farmers Union Branch
CAMPBELL

The Trustees are studying over the advisability of procuring Saratoga cement rock for use in patching the streets where needed. The wisdom of this move can hardly be questioned, as the small increase in cost over creek gravel is saved in the wearing qualities of the cement rock.

After a year of strenuous work and an outlay of three-quarters of a million dollars by the Southern Pacific Company, it now is announced that the long tunnel at Wrights is caving in and it is probable that it will take another year to complete the work at an additional expense of a million or more dollars. The enormous weight upon the tunnel has caused the heavy timbers to give way.

We heard it intimated that a gentleman went to San Jose this week to consult the District Attorney about those lumber piles on Foote avenue. That was entirely unnecessary—the roadmaster who resides here has that under his control. A word in his ear would be sufficient and the lumber would disappear like magic. The only reason we can imagine why it is still there is that he hasn't happened to notice it. He doesn't read this paper, so don't depend on us for that word in his ear.

A rumor was in circulation in San Jose this week that the San Jose, Los Gatos Interurban Railway Company were going to ask for a franchise through East San Jose, crossing either at Jefferson or Franklin street, which would be a continuation of either San Fernando or San Carlos street. This may be only a rumor but we can see no reason why it might not prove true. Certainly an electric road tapping the thickly settled portion of East San Jose would certainly add materially to the revenues of the company.—*East San Jose Post.*

We hear very little about the Single Tax or the Henry George theory of taxation and many people in this part of the world think it a thing of the past, but such is not the case. The Liberal party—the party in power in Great Britain today—went into power on the principal of the rating of land values, exclusive of improvements, in the last election. Moreover Campbell-Bannerman, having got in, sticks to the statement that such land value taxation is a part of the ministerial program, and gives Georgeite reasons for it. In New Zealand the smaller political subdivisions have local option in taxation, and about seventy of them have adopted the Single Tax. It is a notable fact that not a single county or city has abandoned it after once adopting the principal.—*Morgan Hill Sun.*

We believe the time is coming when taxes will be placed on land and free the improvements thereon. It never did look right to us to assess—or fine—a man for his industry in improving his place, while another man holds his land vacant and receives an increase in valuation by means of his neighbors' improvements.

Now's the time to buy East San Jose property

We have some bargains in both Houses and vacant lots

Take advantage of the present low valuations. Buy now and you're the winner. Can we show you some good buys?

We have a bargain in a six-room cottage, on good side of the street; with a splendid variety of fruits and berries. Can we show it to you?

Houses for Sale.

- \$1600—Cottage 5 rooms; barn; city water; lot 78 x 130. On good street.
- \$1050—A house of 5 rooms; barn; two lots; on corner.
- \$900—A house of 5 rooms with basement; barn; well and tank; easy terms.
- \$3000—A house of 8 rooms, toilet, windmill and tank; lot 114 x 116; fine location; half cash, balance 6 per cent.
- \$950—A four room house, city water; \$550 cash, balance on mortgage.
- \$400—A small house; well; barn; lot 40 x 140.
- \$1400—A house of 6 rooms; well; fruit; corner lot, 60 x 130. Cheap.
- \$1100—A new four room cottage; city water; \$250 cash, balance easy.
- \$1500—New 4 room cottage; windmill and tank; 1½ acres land; barn.
- \$1050—A house of 5 rooms; bath, gas for cooking; city water; cheap.
- \$1400—A new house of 8 rooms; bath; hot and cold water; city water.
- \$1350—A house of 3 large rooms; one acre of land; some fruit trees; chicken yard; fine location. \$600 can remain on mortgage.

And other bargains in houses.

Come and see our list of houses for rent.

1 CENT IS ALL IT WILL COST YOU to write for our big FREE BICYCLE catalogue showing the most complete line of high-grade BICYCLES, TIRES and SUNDRIES at PRICES BELOW any other manufacturer or dealer in the world.

DO NOT BUY A BICYCLE from anyone, or on any kind of terms, until you have received our complete Free Catalogue illustrating and describing every kind of high-grade and low-grade bicycles, old patterns and new models, and learn of our remarkable LOW PRICES and wonderful new offers made possible by selling from factory direct to rider with no middlemen's profits.

WE SHIP ON APPROVAL without a cent deposit. Pay the freight and allow 10 Days Free trial and make other liberal terms. No other house in the world will do. You will learn everything and get much valuable information by simply writing us a postal.

We need a **FREE SENT** in every town and can offer an opportunity to make money to enterprising young men who apply at once.

\$8.50 PUNCTURE-PROOF TIRES ONLY \$4.80

Regular Price \$8.50 per pair. To introduce we will sell you a Sample Pair for only \$4.80 (CASH WITH ORDER \$4.55).

NO MORE TROUBLE FROM PUNCTURES. Result of 15 years experience in tire making. No danger from THORNS, CACTUS, PINS, NAILS, TACKS or GLASS. Serious punctures, like intentional knife cuts, can be vulcanized like any other tire.

Two Hundred Thousand pairs now in actual use. Over Seventy-five Thousand pairs sold last year.

DESCRIPTION: Made in all sizes. It is lively and easy riding, very durable and lined inside with a special quality of rubber, which never becomes porous and which closes up small punctures without allowing the air to escape. We have hundreds of letters from satisfied customers stating that their tires have only been pumped up once or twice in a whole season. They weigh no more than an ordinary tire, the puncture resisting quality being given by several layers of thin, specially prepared fabric on the tread. That "Holding Back" sensation commonly felt when riding on asphalt or soft roads is overcome by the patent "Basket Weave" tread which prevents all air from being squeezed out between the tire and the road thus overcoming all suction. The regular price of these tires is \$8.50 per pair, but for advertising purposes we are making a special factory price to the rider of only \$4.80 per pair. All orders shipped same day letter is received. We ship C.O.D. on approval. You do not pay a cent until you have examined and found them strictly as represented.

We will allow a cash discount of 5 per cent (thereby making the price \$4.55 per pair) if you send FULL CASH WITH ORDER and enclose this advertisement. We will also send one nickel plated brass hand pump and two Simpson metal puncture closers on full paid orders (these metal puncture closers to be used in case of intentional knife cuts or heavy gashes). Tires to be returned at OUR expense if for any reason they are not satisfactory on examination.

We are perfectly reliable and money sent to us is as safe as in a bank. Ask your Postmaster, Banker, Express or Freight Agent or the Editor of this paper about us. If you order a pair of these tires, you will find that they will ride easier, run faster, wear better, last longer and look finer than any tire you have ever used or seen at any price. We know that you will be so well pleased that when you want a bicycle you will give us your order. We want you to send us a small trial order at once, hence this remarkable tire offer.

COASTER-BRAKES, everything in the bicycle line are sold by us at half the usual prices charged by dealers and repair men. Write for our big SUNDRY catalogue.

DO NOT WAIT bicycle or a pair of tires from anyone until you know the new and wonderful offers we are making. It only costs a postal to learn everything. Write it NOW.

LATE HAPPENINGS ALONG THE COAST

Interesting Items of News From
Those States that Border
the Broad Pacific.

Current Events Among Your Neighbors in
the Far West Gathered by Mail and
Telegraph and Presented in
Kaleidoscopic Array.

San Francisco.—Harry Atchison, residing at 346 Fifth street, was killed by a switch engine at Fourth and Townsend streets, both legs and his left arm being severed from his body by the wheel.

Stockton.—The first full carload of fish ever shipped from an interior city or town in California left Stockton last week, consigned to commission merchants in Chicago. The consignment consisted of 40,000 pounds of salmon.

Redding.—Ferro-silicon, the first ever made in the United States is being drawn from an electric iron smelter at Heroult, twenty miles from Redding. Ferro-silicon is worth \$100 a ton and all used in this country comes from Switzerland.

Oakland.—Two years in San Quentin was the sentence given by Judge Melvin to aged Mrs. F. J. Fitzgerald for forging a check for \$150 and passing it on the State Savings Bank. The woman pleaded guilty and presented a petition for mercy signed by a number of relatives and friends.

Oakland.—Joseph M. Smith, formerly collector for the First National Bank, who pleaded guilty recently to a charge of having embezzled the funds of the bank, was sentenced by Judge Melvin to serve five years in the penitentiary at San Quentin. His pecuniaries amounted to \$4500.

San Francisco.—Since the Chinese commenced to move back to their old quarters they have caused the police considerable trouble on account of their return to old practices, especially that of gambling. The police have been at work in the Chinese quarter for some time and have made a number of arrests.

Sacramento.—The State Board of Equalization fixed the tax rate for the fifty-ninth fiscal year at forty-two and one-half cents upon each \$100. (An ad valorem tax of two cents upon each \$100 of value of the taxable property of the State for the support of the University of California was also levied.

Los Angeles.—With H. E. Huntington at its head, the San Gabriel Valley Water Company, capitalized a \$2,500,000, has been incorporated. Its aim is to develop a large supply for the great valley after which it is named, and especially for the domestic use of many towns and tracts in which the trolley magnate is principal owner.

San Francisco.—Bound to this port from Alaska, and when twenty miles off the Washington coast, the steamship Rosecrans sailed all one night through a phosphorescent sea of such brilliance that the atmosphere was lighted up for many ships' lengths in every direction, though the night was dark up to the moment the animalculat were encountered.

Hoquiam, Wash.—Frank Todd, one of the best-known loggers in Chelan county, was murdered in cold blood at his home in Hoquiam, when he was struck down within his own woodshed by blows on the head, delivered by an unknown assailant. Rifled pockets, a blood-stained handkerchief and valueless effects scattered about the floor showed the motive for the deed.

Vallejo.—In a frenzy of jealous rage, A. E. Mowery of Bellingham, Wash., shot and killed his wife, Jeanette, an inmate of a tenderloin dance hall. He then turned his gun on Jack Hatch, a sailor, who was dancing with the girl, and shot him twice in the heart and brain. The murderer then fired at a waiter, but missed him. Reloading his revolver, he poked the muzzle into his mouth and blew out his own brains.

Seattle, Wash.—The Pacific Coast Steamship Company has decided to contest the new State law demanding that all steamships obtain a State liquor license, which costs \$25. The company has held, in the first place, that steamships engaged in interstate business are not amenable to the law, and in the second place that one license ought to cover all its boats. The State demands separate licenses for each boat.

Seattle, Wash.—Dr. J. Takihiri, a newly-arrived Japanese surgeon, has been hunting all over town for quarters under a six months' lease, with the stipulation that if Japan and America go to war within that time he is to be released from his contract. This is the first time the danger of war has entered into a local commercial transaction, and none of the landlords Takihiri approached has been willing to consider his proposition.

Boise, Idaho.—The indictment returned last April by the Federal Grand Jury against Senator William E. Borah and other prominent men, charging conspiracy to defraud the United

ENORMOUS PROFITS OF WELLS-FARGO.

Although Company Made Over Fifty Per Cent the President Has a Complaint.

New York.—Although Wells-Fargo Express Company earned 54 per cent on its capital stock in the year ended July 31st, President Evans in his annual report to the stockholders, issued last week, asserts that the company was hindered greatly by restrictive legislation.

He says: "In my last report I called attention to the serious hindrances we were experiencing by reason of restrictive legislation, and I desire to say in this connection that since then an additional number of states and territories have enacted laws appointing commissions, whose duties embrace not only the regulation of railroads, but express companies as well, and the general tendency of such commissions is to seek to reduce our rates. We are now under the jurisdiction of the Interstate Commerce Commission, and compliance with its many rulings and requirements subject us to continued additional labor and expense."

While the company earned 54 per cent, as compared with 38 per cent for the previous year, it pays dividends of only 10 per cent, and this rate is paid only as the result of the fight made a year ago against Herriman, who controls the company, by the minority shareholders. Previous to last year's contest the company paid 8 per cent dividends.

Will Plant Lobsters in the Pacific.

San Francisco.—Another attempt will be made this month to plant the common lobster of the North Atlantic coast—the homarus Americanus of the scientists—in Pacific waters.

Five attempts have already been made, most of them in conjunction with the California State Fish Commission, to transplant the lobster to the western coast of the United States in localities ranging from Puget Sound to Monterey bay, but as far as is known, the attempts have been failures, although it is possible that there may be limited numbers of the crustaceans alive and multiplying in Monterey bay, San Francisco bay and off the northern and northwest coasts. The lobster chosen will probably be secured off the Maine or Massachusetts coast, and will be carefully transported to Puget Sound, where this experiment is to be made.

Songbirds Die by Hundreds.

Sacramento.—Canaries and finches that are considered to be one of the chief attractions of the State Capitol Park are rapidly dying, as though stricken by a plague. Hundreds of the little songsters have been found dead on the roof of the Capitol. Others have been found by workmen helpless and fluttering as if they had been shot. The theory that meets most general acceptance among Capitol employees is that the birds are the victims of a fatal madness such as is said to result in the death of thousands of the chickadees of Canada who tarry in the northern climate until the first fall of snow.

May Drop Prosecution of Land Grabbers.

Portland, Or.—Special Prosecutor F. J. Heney will not return to Oregon early in October to resume the land-fraud trials in this State, as was expected. Plans heretofore announced contemplated the return of Heney to Oregon about October 1st, when the prosecution of pending land-fraud trials would be resumed. Now that Heney is to continue his work in California, the time when the land-fraud prosecutions will again be taken up in this State is more indefinite than ever.

States Government, was served on the defendants last week. Besides Borah, the indictment includes Frank Martin, Attorney-General of Idaho under Governor Steunenberg's administration; J. T. Barber; Summer G. Moon and several other millionaire stockholders of the Barber Lumber Company.

San Bernardino.—Joseph Eckenburg, one of the foremen at the Chino sugar factory, was caught in the belt and injured in a shocking manner. Eckenburg was directing the repair of a belt when the machinery was suddenly started. He was caught by the shoulder, and in a flash, had been drawn to the ceiling, where his body was crushed between the rafters and the shaft. The right eye was torn out, the head crushed, the right arm and leg broken and partly pulled from place. Eckenburg was conscious the entire time and coolly directed the movements of the workmen in disentangling him.

Oakland.—The City Council has passed to print an ordinance by which the salaries of many of the heads of departments and employees of the municipal government are increased about 10 per cent. The secretary of the board of public works is to receive \$200 a month; the deputy city clerk, \$175; license inspector, \$175; city chemist, \$100; city wharfinger, \$135; superintendent of the fire alarm and police telegraph system, \$200; battery-men, \$100; park keepers, \$90; stokers, drivers, tillermen, stewards and foremen of firehouses, \$100. By amendment the salaries of engineers of the fire department were fixed at \$125 a month, city machinists at \$135, and the linemen at \$110.

PRESIDENT'S MESSAGE WILL BREAK RECORD FOR LENGTH

Washington.—When President Roosevelt returns to Washington September 25 he practically will have concluded the writing of his message to the first session of the sixtieth congress.

Every portion of it will be in shape to submit, as is usual, to the members of his cabinet and to those senators and representatives and high officers of the government upon whose judgment he largely relies for suggestion.

The message is to be the longest that he has sent to congress. It will be more lengthy than that which he sent to congress winter before last, which of itself established a new record in the presidential message line. That was the output in which railroad rate regulation was made the overshadowing feature.

Roosevelt's message to congress in

December also will be notable in the manner in which it will deal with questions now before the public, or in which he hopes to make the public take an interest. The matters will be treated in an unusual way with a vigor that will make the message unique as a state paper. It virtually will be a statement of the issues upon which the Republican party will make its fight in 1908.

Roosevelt will demand much legislation, but he will not expect to get all he asks, nor does he wish to get it. He wants the first session not to do too much, but to leave a good working margin, so that results that will appeal to the people may come from the second session next year and be freshly impressed upon the voters shortly before they go to the ballot box, and previous to that upon the delegates to the national convention.

JAPS WILL BE READY TO GO HOME IN CASE OF WAR

Alameda.—Evidence of a startling character was uncovered a few days ago, revealing the belief of Japanese residents of this State that war between the United States and Japan is more than a possibility. That the subjects of the Mikado are preparing for such an eventuality was demonstrated by the remarkable experience of a real estate agent with prospective Japanese customers.

Flatly and without equivocation three Japanese who desired to make really improvement purchase declared to the agent that they would not buy real estate, though they did want to purchase houses without the land upon which the buildings stood. The request to separate the houses from the land in the deal appealed to the agent as so unusual that he was im-

pelled to seek the reason.

There was not the slightest hesitancy on the part of the trio in making known their position. They explained that with a war coming between Japan and the United States they desired to be in a position to make a cleaning up of their property here and depart speedily to their own country in response to the expected call to the colors.

The agents' experience with the Japanese follows closely upon advices which have been received from the north that Japanese in Seattle are demanding that "war clauses" be inserted in leases that they make on property; in other words, that in case of war between United States and Japan the leases shall be terminated without penalty upon the lessee.

FARMERS OF SAN JOAQUIN WILL BUY A RAIN SUPPLY

Stockton.—The farmers throughout the Crows Landing section and in southern San Joaquin county feel in need of 12 inches of rain during the coming winter season, and have met and considered the advisability of employing Charles M. Hatfield, the rain maker, to deliver that quantity of moisture. Hatfield worked under a contract for these very same farmers last year, and not only kept his pledge to deliver 15 inches, but exceeded that amount and delivered rain as long as

he remained in the section.

A contract has been drawn up with Hatfield by the terms of which he agrees to furnish between November 15, 1907, and April 15, 1908, 12 inches of rain to the immediate vicinity in which he is operating. The agreement provides further that in the event of the vicinity being visited with that amount of rain Hatfield is to receive \$3,000. Should the rainfall throughout the section be less than that, Hatfield is to receive nothing for his labors.

PROHIBITION LAW STRIKES HEAVILY AT CHURCH RITUAL

Atlanta.—Under the Georgia prohibition law, which goes into effect January 1, 1908, it is held unlawful to administer wine at communion. This feature of the law is causing protests, and the grand juries throughout the State have adopted the following: "After January 1, 1908, every minister who hands the sacramental wine to members will subject himself to as many indictments as there are members."

Every deacon who hands the sacramental wine to the members of a church will subject himself to as many indictments as there are members.

"We petition the General Assembly of Georgia to make such amendments to the law as will allow Christian people of this State to worship God according to the dictates of their own conscience, without violating the laws of the State."

WILL TRY TO CHECK TRAMP EVIL.

Big Railroad Company Making Plans to Rid Its Trains of the Nuisance.

Chicago.—More stringent measures are to be adopted by the Pennsylvania road for riding its freight trains of the tramp nuisance. For this purpose it recently has reorganized its police department, but it finds great difficulty in securing the co-operation of the local authorities along its lines.

They would rather that the tramps continued to move on the trains than be burdened in their respective communities. During five years the reports show that 23,964 trespassers on American railroads were killed and 25,236 were injured. Most of these trespassers were of the tramp class. It is estimated that the cost of vagrancy is \$25,000,000 yearly. It is mainly by stealing rides that the tramps are able to support themselves. When driven from one town they steal a ride to the next, and after working it to the limit proceed to the next, and so on indefinitely.

Favor Higher Pay for Judges.

Honolulu.—The Honolulu Bar Association has adopted resolutions asking Congress to increase the pay of the Circuit Judges of this circuit from \$3000 a year to \$4000 a year.

WHEAT CROP WILL BE HEAVY.

Railroad Gives Out Facts About the Yield in Northern Pacific States.

Seattle, Wash.—Complete reports received by the traffic department of the Great Northern show that if fair weather prevails during harvest the heavy rains of last week will not seriously damage the wheat crops of the Big Bend and upper Columbia river districts. The wheat yield along the Great Northern is estimated to be 6,000,000 bushels out of a total yield in this State that may run as high as 40,000,000. The Great Northern territory is all late or fall wheat, the principal danger feared by farmers and buyers is the bleaching of the grain. Little or no damage of rust or mildew or sprouting is said to be expressed in the Great Northern report. Weather forecasts indicate that conditions will be favorable to harvesting along the line of the Hill road.

China Seeks Enlightenment.

Peking.—The throne appointed Tashou, Wang Tai and Ting She Hmei to be imperial commissioners, with instructions to separately visit Japan, Great Britain and Germany for the purpose of examining and reporting on the constitutional system of these countries.

NATIVE SONS MAKE GREAT SHOWING.

Natal Day of the Golden State Fittingly Celebrated at San Jose.

San Jose.—With the exception of the great celebration in San Francisco in 1900, the greatest celebration of the admission of California into the Union took place Monday morning at the Garden City, when 10,000 Native Sons of the Golden West marched in review before thousands of visitors. For three hours the marching column tramped through the broad streets under the blue skies to the music of a hundred bands and drum corps, division after division passing in review before Grand President Dugling, its members arrayed in every sort of attractive and fantastic costume. At the conclusion of the parade, people thronged to the games and receptions and literary exercises provided for their entertainment.

To describe the parade in the multiplicity of its details would be an impossible task. Every organization of the Native Sons, and there were seventy parlor or more in line, had its distinctive insignia and regalia. Floats, mounted organizations, National Guardsmen, police, automobiles and carriages were features of the parade. Every vehicle taking part was decorated with the golden and white colors of the Native Sons of the Golden West and streamers and flags, bevy of flower-laden girls and smartly dressed men met the eye in every direction.

Never before in the history of San Jose has such a pageant been presented. Never before in the history of the Garden City have such crowds, intent on merrymaking thronged the thoroughfares. Fully 40,000 visitors is a conservative estimate of the police, and in that great number not a single instance of disorder was reported during the entire passing of the paraders.

Britt No Match for Joe Gans.

San Francisco.—Absolutely outclassed and almost wholly lacking in ability to hit Joe Gans, Jimmy Britt quit at the end of the fifth round of his fight at Recreation Park Monday afternoon, with the announcement that he had broken his left arm and was unable to continue. Britt probably broke a bone in the wrist, but authorities differ, even on that point. But there is no lack of sentiment that Britt was whipped, entirely at the mercy of his colored opponent and, in spite of the gameness which Britt has always had, was glad of an excuse. Whether Britt was able to go ahead with the fight is a matter of contention. That he would have been knocked out when the champion willed, had he continued, is conceded.

At no stage of the short fight that carried with it the championship, did the California lightweight have a chance. Gans was his master and was winning all the way. A one-sided fight, Gans gave a wonderful exhibition of blocking and ducking, at the same time jabbing lightly with his left and crossing the right to the jaw when chance favored him. It was his inability to land, his utter helplessness, not only on the offense but on the defense as well, that must have discouraged Britt. He declined to continue after the fifth round, claiming that his arm was broken, and Referee Walsh awarded the match to Gans.

Fixes Blame for Columbia Wreck.

San Francisco.—Captain Bermingham, supervising inspector, places the blame for the loss of the steamer Columbia upon the late Captain Doran, master of the Columbia, and First Mate B. Hendriksen of the steamer San Pedro. The license of Mate Hendriksen is suspended for three years, the length of time it has to run, and the local inspectors are forbidden to issue a new license until September 1, 1912. Captain Hansen, master of the San Pedro, is adjudged guilty of negligence, and his license has been revoked for a year.

Will Marry Ex-Queen.

San Francisco.—On the steamer Mariposa from the Isle of Tahiti, came the fiancé of ex-Queen Liliuokalani of Hawaii. This is Prince Salmon, who in every-day life signs himself A. P. A. Salmon. He is a graduate of Oxford and a man of some means. The greater part of his life has been passed on the Island of Tahiti, but he has traveled extensively. Prince Salmon weighs nearly 300 pounds. On the trip from Tahiti, according to the officers of the Mariposa, Salmon acknowledged that he was to marry Hawaii's ex-queen.

Ten Children the Beneficiaries.

Petersburg, Ind.—A record in the number of beneficiaries named in a life insurance policy was made last week when Emory Willis, a farmer living four miles west of here, took out a policy in favor of his ten children, all of whose names begin with "R." and were recorded as follows: Rezeen, Rufus, Ruth, Russia, Roso, Robert, Roosevelt, Ralph, Righteous and Roxey.

Made Director of Veterans' Home.

Sacramento.—Dr. W. J. Hanna of Sacramento was appointed a director of the Veterans' Home at Yountville by Governor Gillett. Hanna was chosen by the Spanish War Veterans and recommended for the place by them.

WHAT THE WORLD HAS BEEN DOING

Important Happenings of the Past
Week Tersely Related in
Short Paragraphs.

Current Events in Every Part of the Globe
Gathered by Many Correspondents
and Briefly Reviewed for the
Benefit of Our Readers.

Oyster Bay.—President Roosevelt will leave for Washington on September 25th instead of September 29th, and have a day in Washington before starting on his Western and Southern trip on September 29th.

Washington.—It is reported that Governor Smith is to return to California from the Philippines. He may be given a Judgeship in California. Judge Tracy of the Philippines Supreme Court is mentioned to succeed to the Governorship.

Washington.—The Navy is jubilating over the showing made by its representatives at the Camp Perry, O., target practice. H. T. Smith, the midshipman who took the individual military championship of the United States, is from Washington, and is 18 years old.

Put-in-Bay, O.—The Puc-in-Bay House, one of the leading hotels on this island, was totally destroyed by fire, together with most of its contents. Guests were compelled to leave the burning structure hastily and few of them saved their belongings. No one was injured.

Indianapolis, Ind.—The National Federation of Postoffice Clerks adopted resolutions favoring placing all postmasters and first assistants in the classified list of the civil service, an eight-hour day, one month vacation annually, a pension and a minimum salary of \$1200 per annum.

Dayton, O.—Fire Chief B. H. Miller of Franklin, O., shot and instantly killed J. H. Little, who recently eloped with his wife, and was returned to Franklin for trial. Miller entered the police station, and going directly to Little's cell, fired two bullets, which lodged in his victim's breast. Miller is now a raving maniac and under guard.

Paris.—A dispatch received here from Governor-General of Indo-China declares that Thanh Thai, the deposed king of Annam, has abdicated in favor of his eight-year-old son, who now rules Annam with the aid of Regents, consisting of the counsels of Ministers. Thanh Thai was deposed by the French residents of Annam and interned in his palace.

Honolulu, T. H.—Governor W. F. Frear has decided to approve the plan suggested by former Secretary Atkinson, to allow use of Territorial convict labor for construction of a road to the crater of Kilauea, and there will be a force of men in stripes using picks and shovels on the brittle lava that stretches across the floor of Kilauea to the crater of Halemaumau.

Yreka.—During a severe electrical storm lightning struck the home of C. S. Smith, tore part of the roof off, the plastering down, burned the telephone and lights out and tore the frames off pictures, but left the pictures hanging. The Smith family was away. C. C. Cady's house was struck in the same way and set fire to. Mrs. Cady put the fire out. Over one hundred telephones were burned out.

Honolulu.—It is now almost certain that a baseball team composed of Japanese and Hawaiian players from Honolulu will go to Japan to give a series of games there. K. Inoue, member of the Japanese parliament and managing director of the Hakkaido mining and steamship company, who passed through here on the Nippon Maru, will aid the enterprise. He is a college graduate and a baseball fan.

Seattle, Wash.—Safe-crackers blew open the safe in the office of R. M. Hopkins, clerk of the United States District Court. The force of the explosion bent and twisted an inner door so effectively that the robbers could not open it. Officials of the court claim that no money was in the safe, and there were no important court papers in the safe that would have led any one interested in litigation to break in.

New York.—The first strike in the Teddy-bear trade has occurred in this city. A strike of Teddy-bear makers took place in the factory of the Bruin Manufacturing Company. Only the stuffers quit work, the leg, arm, trunk and head artists refusing to strike in sympathy. The strike was against a reduction of prices paid to the stuffers for piece work. The manufacturers say there is no danger of a "Teddy-bear" famine.

Topeka, Kan.—Judge Smith McPherson of the federal court here issued an order for the exhumation of the body of Louis E. Perkins of Lawrence, Kan., whose life had been insured by the Mutual Life Insurance company of New York for \$100,000. His heirs brought suit against the company to compel payment of the policy. The insurance company desires to have the stomach examined for traces of poison, holding that Perkins committed suicide.

How Much Could You Get For Your Farm?

You are a farmer. You live near this town. You own land. Let us say that you own more than you need and would like to sell a hundred acres.

How much could you get per acre? Land values have risen lately. But has the value of your land risen as you think it should?

Your land is good land. You think it is worth considerably more than anybody has offered you. Well, let us see.

A man buying farm land naturally prefers to locate near a thriving, up to date town. He wants good home markets for his crops. He wants good schools.

Let us say your land is three miles from town. A farm that looks very much like yours is three miles from a town twice as big and twice as prosperous as this town.

If you were going to buy a farm for your own occupancy, wouldn't you pay a whole lot more for land near the town that is twice as large and twice as lively?

Of course you would. It would be good business.

Now, what makes a town big and bustling? Money. Money in circulation. Not in circulation in Chicago, for instance, but right in the town that wants to grow.

How much money have you sent to the big Mail Order houses in the city the past ten years? How much have your neighbors sent? How much have all of you together put out of circulation here at home?

It is probably beyond calculation. If all that money had been spent in your own home town, isn't it reasonable to assume that the town would have grown more than it has grown?

Wouldn't this town be a bigger and better town?

Wouldn't it have more stores to buy your produce?

Wouldn't it have more public improvements to make it more attractive to outsiders who might come here to live, to go into business, or buy your surplus land at a good figure?

TO TRADE AT HOME MEANS TO HELP THE TOWN AND THE NEIGHBORHOOD. TO HELP THE TOWN AND THE NEIGHBORHOOD MEANS TO HELP YOURSELF.

A New Aid Fable.

This is not a George Ade fable, though it may sling some slang. It is a Home Aid fable.

Once there was a Geezer, who sat around and cut Kindling too small for Cook Stove purposes. He Whittled against Time and Flabbergasted against his Town. The town was No Good, he said—strictly on the Blink. Yes, it was N. G. Why, hadn't he lived here since '81 and found that the Place was Punky? Sure, Mike!

Look at that town over in the next County. Grown like Jonah's Gourd. Must be a Jonah here. We've grown some, but I don't see that we're knocking any particularly Big Persimmons. That's the way this Gazaboo knocked his town.

One day a Sarcastic Stranger floated into the Town that was Knocked from the burg that had blossomed like Jonah's Gourd. He heard some of the Flabbergasting and Drooped to the situation.

"Look here, you," he remarked to the citizen who was Handling Out the Knocks. "What do you do for this town? Are you doing your part to put this Punk on the Upgrade? What's that hefty Bunch of literature sticking out of your Clothes?"

"That's a Mail Order Catalogue from Chicago—a town that is a town," replied the Geezer.

"So I thought," said the Impertinent Arrival. "Now let me hand you out a nice little Wad of common sense. For the past ten years you have been sending your money to the Chicago Mail Order houses instead of spending it among your home merchants. What would have happened to Chicago fifty years ago if all the First Settlers had shipped their Loose Coin to New York on catalogue inducements? Why, you'd have to use a sand dredger now to find the Original Site of Chicago. Now, in the Burg from which I have just Blown in we got over all this Bum Business years ago. We passed Resolutions that we would trade at home and help our own town to Spread out so that you could Sight it on the map without using Opera Glasses. But you and a Bunch of other folks in this town have wasted your Substance in Rhetoric Expenditures in Chicago by mail and let the sheriff hang out the 'Nothing Doing' sign in front of some of your own town's mercantile Emporiums. Look at our Town and then look at yours. What makes the Difference?"

Whereupon the Whittling Gazaboo threw a few well chosen Thoughts into his mental makeup and went down to the village store to Annex a linen collar in place of the Paper Circles which he had bought from Chicago at Two Bits a Box.

MORAL: If you want your town to grow, patronize home enterprises.

PRESS NOTES

Frank Needham spent last Sunday with his parents here.

Mr. and Mrs. Hardesty of Saratoga have moved to Sunnyside avenue with their family.

Mrs. Morrell of Harrison avenue this week entertained her son, Harry Morrell, and two friends, Miss Daisy Veaco and Stanley Veaco, all of San Francisco.

Mrs. William Duncan of San Juan is spending a few days in Campbell, visiting relatives.

Mrs. Emil Fritz has accepted an earnest call to teach a school in Shasta county, where she taught several years ago.

Rev. J. W. Lewis and Miss Lewis are attending the Conference at Pacific Grove.

J. F. Duncan has been laid up with the grip for several days.

Avery Kennedy has returned to the Polytechnic School at San Luis Obispo, where he finishes his course of study.

Misses Cora Rodeck and Tillie Hayes are spending a week in San Francisco.

Dr. and Mrs. M. J. Gates of Santa Cruz visited friends here this week.

Mrs. Gertrude Owsley is visiting her parents while her husband is away on a business trip in the San Joaquin. He is in the employ of the government.

The regular meeting of the W. C. T. U. will be held with Mrs. Morrell on Wednesday, September 18th, at 2.30 o'clock.

A woman alighted from an Interurban car one night recently, and fell over a bunch of lumber in that locality, left in the street. She now carries bruised shins as a reminder that a person needs to be careful when walking in neighborhood after night.

Savage Surgery in Africa.

Queer methods have the savage native surgeons of Africa. What is the secret of their success it is not easy to conceive, but savage doctors effect cures in spite of the most atrocious treatment of their patients. One of the party who was bearing Livingstone's body to the coast was shot through the leg, shattering a thigh bone. This is how they treated him: First they dug a pit and buried him in it in such a posture that his head and arms were free. Then they covered the earth about his legs with a thick layer of mud. Upon this were heaped leaves and grass, to which fire was applied, directly over the fracture of the limb. The heat gradually worked down to the wound, and the man suffered renewed agonies. After awhile he was taken out and held quite fast while two giants with all their might stretched the shattered leg. Splints were duly applied, and the man was pronounced on the way to a complete cure. That was the normal practice successfully followed for this class of case.—London Standard.

Early Northwest Voyages.

Beginning with the American discoveries of John Cabot in 1497, the search for the Northwest passage was for many years the object of rival expeditions from Denmark, England, France and Portugal. It was Frobisher, however, who in 1576-78 first gave a distinct national character to the quest. John Davis, of Davis strait, followed in three voyages, 1585-88, and then, in 1612, came the illustrious and hapless Henry Hudson, whose motto was that explorers should "achieve what they had undertaken or else give reasons wherefore it will not be." The search from the Atlantic side closed for two centuries with the voyage of a great seaman, William Baffin, who, in a tiny boat of fifty-five tons, with a miserable equipment, but an undaunted heart, attained in 1616 the highest north in the western hemisphere, 77 degrees 45 minutes N., and discovered three radiating sounds, Jones, Smith and Lancaster, the last being the eastern entrance to the long sought passage.—A. W. Greely in Century.

REV. NEEDHAM TO LEAVE.

Expects to Give up Active Ministerial Work.—Reception Wednesday.

Dr. and Mrs. A. H. Needham are attending the Methodist Annual Conference at Pacific Grove. The Official Board of the Church met on Monday evening to close the year's work, and it was reported that, notwithstanding the fact that the fruit crop the past year had been a failure, the Pastor's and Presiding Elder's salaries had been fully met, a very handsome sum had been received for the benevolences, making in all over \$2000 for the year.

The Pastor has labored faithfully during his pastorate while here, and he will carry with him to his new home the best wishes of a host of friends.

Dr. Needham informed his congregation last Sunday that he intended to give up his active ministerial work and therefore did not expect to return for the next year.

A reception to Dr. and Mrs. Needham will be given in church Wednesday evening, Sept. 18th, to which everyone is cordially invited. A short program will be provided.

Reception to Honorary Members.

The ladies of the W. C. T. U. gave a reception to honorary members at the home of Mr. and Mrs. Frank Savage Thursday evening. A delicious supper was spread, and was followed by toasts given by Mrs. F. S. Newcomb and responded to as follows: "Our Hostess, the W. C. T. U.," C. H. Whitman; "The Power of the Press," Mrs. E. C. Hurlbert; "Words of Cheer," F. M. Righter; "Faith and Works, as Exemplified in the Coffee Club," Mrs. Savage; "Industrial Freedom, the Keynote of the Twentieth Century," Prof. J. F. Smith; "Woman's Part in the Upbuilding of Campbell," Dr. C. N. Cooper.

As the day was the fortieth wedding anniversary of Mr. and Mrs. Savage, a beautiful picture of "The Hanging of the Crane" was presented them by the members of the Union, and Longfellow's poem adapted to the occasion was read by Mrs. Morrell. No pains were spared to make the evening thoroughly enjoyable to the honorary members, and in this the ladies were most successful.

School Opens.

The public schools opened last Tuesday for the fall term. The number of pupils entering the respective classes follows:

Seventh and eighth grades—Principal J. H. Graves, teacher, 27 pupils.

Fifth and sixth grades—Miss E. H. Main, teacher, 43 pupils.

Third and fourth grades—Miss Mary Fablinger, teacher, 38 pupils.

First and second grades—Miss L. Collins, teacher, 29 pupils.

The school starts off with a splendid corps of teachers and no doubt the year will be a very satisfactory one.

The Rev. George E. Atkinson left last Monday for an Eastern trip, expecting to be absent six weeks. He goes as a delegate to the great gathering of Congregationalists, which meets in the State of Ohio, and is an important meeting. Rev. Mr. Atkinson will then join his family at Tomah, Wis.

FOR RENT—House of 5 rooms on orchard, near town. Address this office.

NOTICE OF HEARING PETITION FOR CONVEYANCE OF REAL ESTATE.

IN THE SUPERIOR COURT OF THE State of California, in and for the County of Santa Clara.

In the matter of the Estate of Henry Crosson, Deceased.

Notice is hereby given that Mary Crosson, administratrix of the Estate of Henry Crosson, deceased, has filed in the above entitled court her petition for a decree authorizing her as such administratrix to convey to one Edward B. Hinds, certain real property belonging to said estate, situated in the City and County of San Francisco, State of California, and described in said petition as follows:

Commencing at a point on the southeasterly line of Clara Street, distant thereon 72 feet northeasterly from the northeasterly line of Sixth Street; running thence northeasterly and along the southeasterly line of Clara Street, 44 feet 7 3/4 inches; thence at a right angle southeasterly 80 feet; thence at a right angle southeasterly 41 feet 7 3/4 inches; thence at a right angle northwesterly 53 feet 9 inches; thence at a right angle southwesterly 26 feet 3 inches to the southeasterly line of Clara Street and the point of commencement.

And notice is also hereby given that said Court has appointed the 6th day of September, 1907, at the hour of 10 o'clock a. m. of said day, and the court room of Dept. Two of said Superior Court at the court house in the City of San Jose, County of Santa Clara, State of California, as the time and place of hearing said petition and when and where all persons interested may appear and contest said petition.

Dated July 25th, 1907.

HENRY A. PEISTER,

Clerk of said Superior Court.

By W. D. DAWKINS, Deputy Clerk.

Seal of the Superior Court.

SUMMONS.

In the Justice's Court of San Jose Township, County of Santa Clara, State of California. Frank H. Benson, Justice. E. Pezola, Plaintiff, vs. R. W. Foster, Defendant.

The People of the State of California send greeting to R. W. Foster, Defendant.

You are hereby required to appear at my office in San Jose Township, Santa Clara County, State of California, to answer before me the complaint of the Plaintiff in the above entitled action, now on file in my office, within five days after service hereof upon you, if served in said Township; or within ten days if served out of said Township but in said County; or within twenty days if served elsewhere; in each case computing the time by excluding the day of service. And you are hereby notified that if you fail to appear and answer said complaint as above required, the Plaintiff will take judgment for any money or damages demanded in the complaint as arising upon contract, or will apply to the Court for the relief demanded in the complaint.

To the Sheriff or any Constable of said County, greeting: Make legal service and due return hereof.

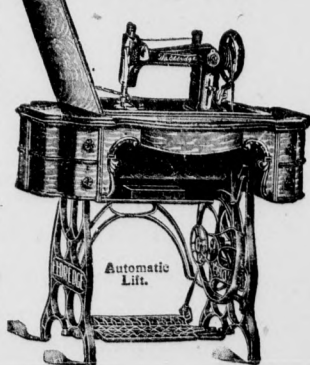

Given under my hand this 20th day of December, 1905.

FRANK H. BENSON,

Justice of the Peace in and for said Township.
